SUMMARY

I am a third-year B.Tech student specializing in Artificial Intelligence and Data Science, with a strong technical foundation in programming languages such as C, C++, and Python. I have hands-on experience working with Linux-based systems and have developed web applications using React. My skill set also includes proficiency in SQL for database management and RESTful APIs for building scalable backend services.

EDUCATION

SRI KRISHNA COLLEGE OF ENGINEERING AND TECHNOLOGY

Bachelor of Technology in Artificial Intelligence and Data Science

2023-2027 *

CGPA-7.5 *

TECHNICAL SKILLS

Programming Languages: C,C++, Python & Administration: Linux (System Administration, Shell Scripting, Package Management)

Currently Pursuing: Specialization in Large Language Models (LLMs) and Machine Learning (ML) – Strong foundation in model training, natural language processing, and applied AI research.

PROJECT

- Snake Game — Developed a classic Snake game using C++ and the SFML library, focusing on smooth gameplay and responsive controls.
 - LLM_Agent — This project is an intelligent HSN (Harmonized System Nomenclature) Code Validation and Suggestion Agent, designed to validate HSN codes and suggest relevant codes based on product descriptions. It is built using Google ADK (Agent Developer Kit), Ollama Llm (Llama3.2) LiteLLM, Pandas, OS, and Logging libraries.
-

CERTIFICATION COURSE

Certified in C, C++, Python, Linux, Java, SQL, React.js, and LLM agents — demonstrating strong proficiency in programming languages, operating systems, database management, web development frameworks, and AI-powered language model applications.

LANGUAGE

- Tamil – Native Proficiency
- English – Professional Working Proficiency
